AD ON AI

CERTIFIED CLAUDE EXPERTS

// AI ENABLEMENT

# The complete AI program, from first prompt to AI agents.

Our most comprehensive program. It takes you from using AI now and then to building skills, automations and AI agents that do real work for you. Taught on your own tasks.

PROGRAM FEE

**$2,500**

per person · once-off · ex GST

- All 24 modules & platform access
- Hands-on lessons, taught on your own tasks
- Lifetime academy access*
- Progress reporting for managers

+

MEMBERSHIP

**$200/mo**

per person · ex GST · support & community

- 2 hours of one-on-one support every month
- A monthly live webinar on what's new in AI
- Community: masterclasses, podcasts, a newsletter and a peer network

Works with Claude · ChatGPT · Gemini · Copilot · Grok · and more

*Everything, all the way to AI agents*

WHAT YOU GET

## Not another workshop you forget by Friday.

You take a job you do by hand and teach AI to do it. Those jobs don't come back.

**The complete program**
24 modules across three topics: the essentials, automation and AI agents. Nothing left out.

**Built three times over**
You build each skill, workflow and agent three times, on three different jobs, so it sticks.

**Your own AI helpers, not just better prompts**
Skills, automations and agents that do real tasks for you.

**Skills that outlast the tools**
What you learn works in whatever AI tool comes next.

THE JOURNEY

## Three topics, from the basics to AI agents.

STEP 1
### The essential skills
Modules 1–8

Use AI properly: give it clear instructions, check its work, connect it to your email, calendar and files, and set it up so it already knows your work.

STEP 2
### Automation
Modules 9–16

Hand over the jobs you repeat every week. Turn them into skills AI runs on demand, then put them on a schedule.

STEP 3
### AI agents
Modules 17–24

Let AI handle whole jobs. Plan an agent, build it, launch it, then add more and put a lead agent in charge.

YOUR MEMBERSHIP

## What your $200 a month gets you.

Support isn't part of the program fee. It comes with your membership, along with everything in the community.

MONTHLY
**One-on-one support**
Two hours with our AI specialists each month, for your questions and the trickier workflows.

MONTHLY
**Live AI trends webinar**
One hour on what's actually changed: new models, releases and the skills worth adopting. Recorded if you can't make it.

PER TOOL
**Tool masterclasses**
Focused sessions on each new tool worth your time, built around real business use. Recorded and kept in the academy.

WEEKLY
**Business podcasts**
Short, practical episodes on how real businesses are putting AI to work.

MONTHLY
**The newsletter**
A round-up of what changed and what's worth your attention, in plain English.

ALWAYS ON
**A peer network**
Other people from Australian businesses who use AI heavily in their own work. Compare notes and swap what works.

WHAT YOU BUILD

## What you walk away with.

Three of most things, each built around the work you're already doing.

| | |
|---|---|
| 5–6 | Ready-made prompts for your main tasks |
| 3× | AI skills built around your job |
| 3× | AI tasks using images, docs & screenshots |
| 3× | Workflows AI runs start to finish |
| 3× | AI agents doing real work |
| 1× | Lead agent running the others |
| 1× | Job running on a schedule |
| 1× | Browser job handed over to AI |
| 1× | Skill that builds new skills |

∞ Plus the knowledge to keep building them yourself, and every other skill you pick up along the way.

FAQS

## The questions we hear most.

**How is this different from AI Intermediate?**
It's our complete program. AI Intermediate builds each thing once and stops at scheduled tasks. AI Enablement builds each one three times over, then goes on to AI agents.

**Can I cancel?**
Yes, you can cancel your membership any time. That ends your support, community and academy access, and a re-joining fee applies if you come back later.

**How do I book my one-on-one support?**
It comes with your membership. Book through the calendar link in your platform, in sessions of at least 1 hour.

**Is the platform secure?**
Yes, all features and content are hosted securely.

**Can I join the community without finishing the course?**
No, the course needs to be completed first.

**Can I transfer my membership?**
No. It includes lifetime access to the Ad On AI Academy*, so it can't be transferred.

**Do unused support hours roll over?**
No. The 2 hours are use-it-or-lose-it each month. If you need more, extra support is $300 per hour, ex GST.

**When do my entitlements begin?**
From the day you start your course.
